

Day 3 journal entry

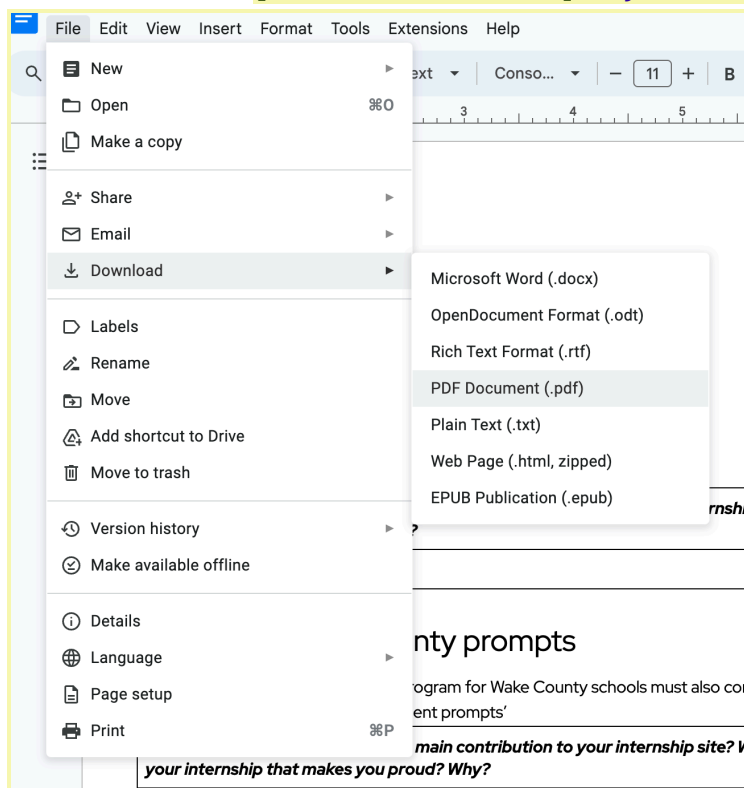

Joshua Pite

Prompt option 2: *What is one new skill or piece of knowledge you've gained this week? How do you see yourself applying this in the future?*

One new skill I have learned during my time at Red Hat is from the Chief Product Officer, Ashesh Badani, and he said to really pay attention to the ratio of how much you speak versus how much you listen and take in. I have been trying to pay more attention to this because I found him very well spoken and I believe that if I add that to my skills then I will be better spoken which will help me in the future with getting jobs or other things along those lines.
