

Day 3 journal entry

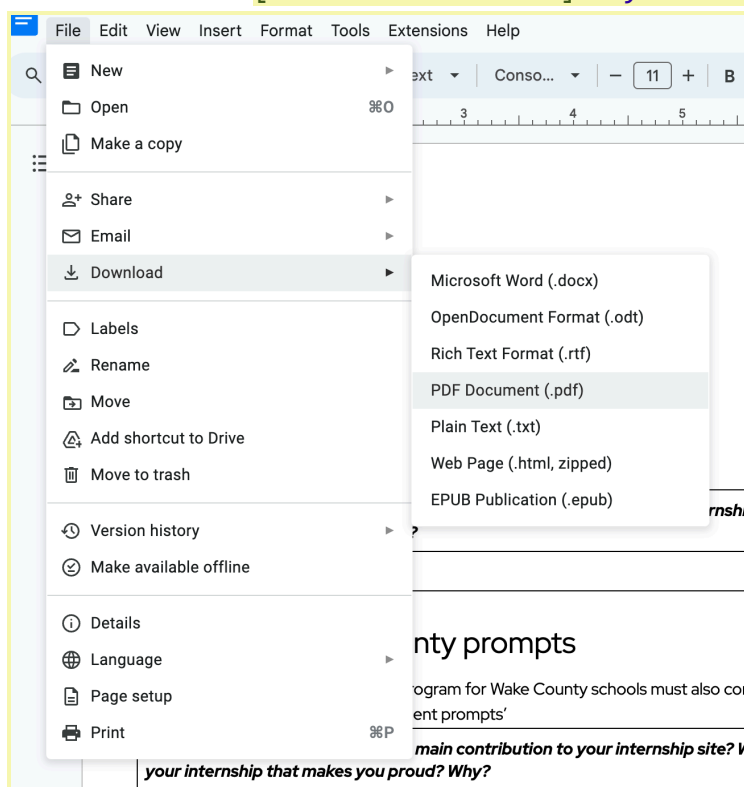

Krish Attaluri

Prompt option 3: *What are some of the differences you've noticed between a school environment and a professional work environment?*

Some of the differences that I have noticed between a school environment and a professional work environment is that surprisingly the professional work environment here at Red Hat is more relaxed and calm than my school. At my school, we don't have a lot of breaks or free time and most of the information we learn at school is never really used again. At Red Hat, there are ample breaks, free time, and every single thing I have learned here I will probably use again later in life
