

# Day 4 journal entry

Jenayah Rose

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

**Prompt option 1:** *What is a topic that you found interesting this week? How do you plan to seek additional information and learn more about that topic?*

Something that I found interesting this week was the topic on AI. I find AI to be very interesting and that there is so much more to learn about than what I currently know.

**Prompt option 2:** *Discuss your interactions with various people during your internship and the value each relationship brings (peer interns, college mentor, session speakers, higher-level leaders).*

Everyone here has been very welcoming and nice. I definitely enjoy the culture of Red Hat. I found the interactions with my mentor to be the best interaction that I so far have had.

**Prompt option 3:** *What are your main takeaways from this first half of your internship and how do you plan to carry those lessons into your second week?*

My main takeaways from this week is to not be afraid to ask questions and networking is very important and the best way to go far in life.

# Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Day 4 Journal Entry**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#). Use the '[Journal entry contribution cheat sheet here](#)' to assist you and ask a GitHub coach for help if you need it!
