

# Day 3 journal entry

Reagan Trinh

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

**Prompt option 1:** *How has your classroom experiences prepared you for the internship? What do you wish you had learned prior to the internship?*

Add your response here

**Prompt option 2:** *What is one new skill or piece of knowledge you've gained this week? How do you see yourself applying this in the future?*

A new skill or piece of knowledge I've gained this week is the ability to work around with GitHub. I've heard that it's a good tool to use in a technical professional environment, especially at Red Hat. I do see myself applying here in the future and hopefully working here. This place covers a variety of roles such as being a UX Designer, and a Product manager. There are roles that sound interesting which is a good sign because you could explore those roles to gain more knowledge.

**Prompt option 3:** *What are some of the differences you've noticed between a school environment and a professional work environment?*

Add your response here

# Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Day 3 Journal Entry**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#).

Use the ['Journal entry contribution' cheat sheet here](#) to assist you and ask a GitHub coach for help if you need it!
