

Day 4 Journal Entry

Jessica Zanchi

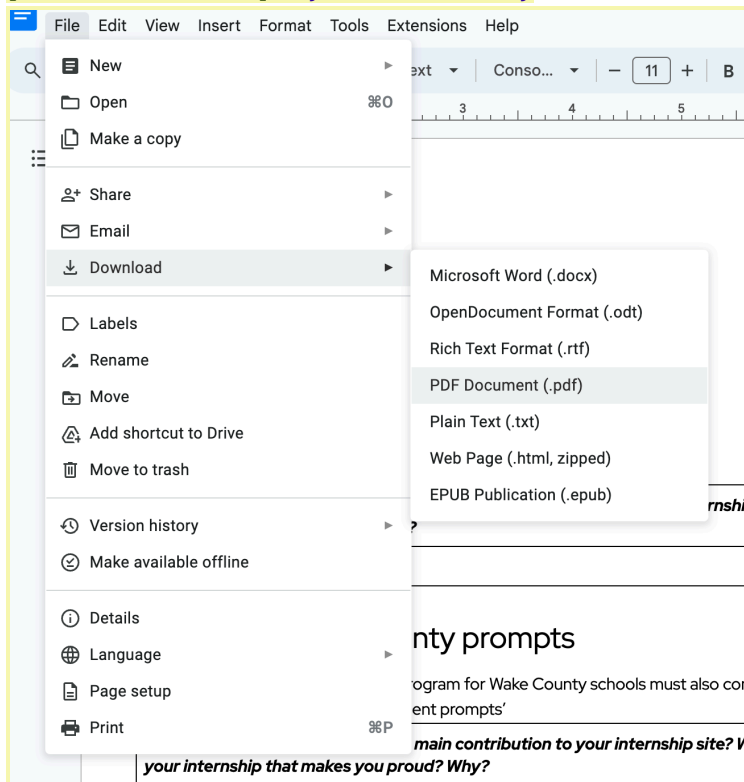

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

What is a topic that you found interesting this week? How do you plan to seek additional information and learn more about that topic?

A topic that I found interesting this week was the presentation about the relationship between User Experience, Product Management, and Technical Engineering. I really enjoyed the interactive aspect of it—how we got to brainstorm solutions to a problem within our own groups, and take turns sharing our thoughts at the end. Before this internship, I was aware that there was communication to be had between each department, but I didn't know just how often teams stop and check in with each other. I will seek more information about this phenomenon by speaking to any associates I find that would have relevant information next week.

Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Day 4 Journal Entry**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#). Use the ['Journal entry contribution' cheat sheet here](#) to assist you and ask a GitHub coach for help if you need it!
