Day 8 journal entry

Prompt option 3: **If you could give advice to a student starting this internship next year, what would it be?**

My advice for a student wanting to start this internship next year would be talk to everyone you meet. I think talking to all of your peers and the adults you meet will allow you to gain real world experience of proper communication in a professional environment. You will also be able to gain so much advice and helpful information for starting your own career. Another thing I would recommend is asking as many questions as possible. Getting the opportunity to talk to all of these professionals is something truly amazing and everyone you interact with definitely has amazing advice.
