| My interactions with the people here at the internship have been great. I've made connections and great friends. Everyone gets along with each other, and helps us grow. The session speakers are very passionate about what they're talking about, which makes it engaging and interesting. Everyone at Red Hat makes the environment great and helps me determine if I want to work here in the future. |

Prompt option 3: *What are your main takeaways from this first half of your internship and how do you plan to carry those lessons into your second week?*
