Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

Prompt option 1: **How is the internship meeting or not meeting your expectations/objectives and why? Do you have control of this? Explain.**

The internship is definitely meeting my expectations and objectives, as I've been able to learn a great deal of how an industry leader functions in the market, and how people individually find their passions and what they want to do in their lives. The mix of that and the ability to talk to other interns and people and ask them questions is extremely helpful and nice, and it's giving me exposure I didn't think I would have. Especially in high school. My objectives are essentially to talk to as many people as I can and gain their insights on the market and their fields, gain more technical and non-technical knowledge. So far, everything has been great.

Prompt option 2: **Who have you met during your internship that has made an impact on you, and why?**
